What is this product?

TYPE OF PRODUCT

The product is a sub-fund of EASTERNMED FUNDS VCIC PLC, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (VCIC) under the laws of Cyprus.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

Easternmed Asset Management Services Ltd manages the investments of this sub-fund.

Aims to preserve shareholders' wealth and to achieve long-term capital growth subject to moderate volatility with a target return of Euribor 3 Months+ 5% p.a. The sub-fund is actively managed and uses the Euribor 3 months as benchmark for comparative purposes only. Its performance can deviate significantly from the Benchmark.

Invests more than 50% of its Net Asset Value in listed Equities. Although European (but also US) equities are the main investments of the Sub-Fund, up to 20% of NAV may be allocated to equities of other Developed markets and up to 20% of NAV to Emerging Markets equities. The Sub-Fund invests predominantly in large capitalization and well-established European, but also US, companies with a recognizable brand name, solid market share and reputable management. The Sub-Fund's direct equity investments concentrate on (a) companies with a solid real asset base in industries such as energy, materials, utilities, industrials, etc., (b) financial companies such as banks and insurance companies and (c) healthcare. Specifically, the Sub-Fund invests up to 35% of NAV in energy, up to 30% of NAV in financials and up to 25% of NAV in each of all other equity sectors. Investments in listed equities include large capitalization equities of mainly European and US Companies (>\$10 billion) and to a limited extent (up to 20% of NAV) in mid and small-cap equities (<\$10 billion). The Sub-Fund may further invest a portion of its assets (up to 25% of its net assets) in long-only equity funds (e.g. UCITS and Other UCIs) with Assets under Management (AuM) in excess of €500 million. The Sub-Fund may finally invest in fixed income and cash less than 50% of its net assets. Fixed income may also include investments in bond funds (e.g. UCITS, Other UCIs) and other money market instruments, which should not exceed 10% of the Sub-Fund's net assets.

This Class is cumulative. Dividend distributions are not planned.

The return of the product is determined using the net asset value calculated by the Fund Administration function. This return depends mainly on the market value fluctuations of the underlying investments.

The Sub-Fund's assets are segregated from assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay debts of other sub-funds.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 10 years.

What are the risks and what could I get in return?

Risk indicator

1 2 3 4 5 6 7

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 10 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 6 out of 7, which is a high risk class.

This rates the potential losses from future performance at a high level. Poor market conditions could impact the Fund's capacity to pay you.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavorable, moderate, and favorable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 15 years. Markets could develop very differently in the future.

What happens if Easternmed Asset Management Services Ltd is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with Bank of Cyprus Public Company Ltd and are segregated from the assets of other sub-funds of the VCIC. The assets of the Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested

Investment of EUR 10 000	If you exit after 1 year	If you exit after 10 years
Investment of EUR 10 000		
	EUR 40	EUR 407
Annual cost impact (*)	0.4%	0.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.0% before costs and 4.6% after costs.
