Factsheet as of 31 July, 2018

Investment Objectives:

The fund aims to preserve shareholders' wealth and to achieve long-term capital growth subject to moderate volatility. The investment horizon of the fund is 10+ years. The strategy of the fund is long-term, value-oriented and opportunistic.

Investment Policy:

- The fund mainly invests in highly liquid assets comprising of listed equities in large capitalization and well established companies predominantly in Europe, but also in the US and emerging markets to a lesser extent.
- The fund may also invest in long-only equity funds (UCITS and other UCIs) to supplement its direct equity investing activities and diversify its sources of return.
- Finally, the fund may invest part of its assets in fixed income securities, including cash. Fixed income securities shall include investment grade corporates, emerging market bonds and some high yield paper of issuers.
- The fund's equity investments have a bias to energy and financial services industry and to industries with real rather than intangible assets. The choice of equities is guided by a number of parameters which among others include large capitalization, secure, high and growing dividend policy, strong record of revenue and profit growth and low to average valuation.

Benchmark:

While exposures will be monitored and comparisons will be conducted, the fund will not at any time strictly adhere to a specific benchmark.
